Armed with a firsthand understanding of what it takes to help students fulfill their true potential, Teach For America alumni work from a variety of sectors to lead and support critical efforts to end educational inequity. **Our 28,000 alumni are a growing force of transformational leaders.**

**ONGOING COMMITMENT TO EDUCATION**
Teaching remains the most common profession among our alumni, with more than 7,000 alumni continuing to teach.

Nearly **2 out of 3** of Teach For America alumni work in the field of education, and half of those in education are teachers.

More than **80%** of our alumni have jobs that impact the field of education or education issues, despite the fact that only fifteen percent of alumni considered a career in education before entering the corps.

About **87%** of Teach For America alumni do mission-aligned work, defined as working in education, studying education full-time, or working in a job that impacts education and/or low-income communities.
