

February 10, 2010

Dear Club Advisor or President:

The troubled state of the economy seems to be on everyone minds and is a concern to the graduating class of 10-11. The WestPACS job and internship fair provides great **face-to-face networking opportunities** with many employers still seeking to fill positions for **summer internships** and **post graduation employment**. This past fall, many of the 1200 students who attended WestPACS made valuable contacts, received interviews and were even hired as a result of attending Western Pennsylvania's biggest job fair event. Says one student of her experience:

"I spoke with a total of nine employers. None of the companies in my field were interviewing that day; but later two organizations called me for an interview and I accepted a job offer with one. I got a call from a third organization for an interview after I had already begun working!"

This spring we expect to have more than **100 employers** registered with positions for almost every major, including: business, engineering, science, social services, healthcare and many others.

Students and alumni of member schools of WestPACS have the ability to **preregister by March 22nd** at www.westpacs.org and attend for the discounted rate of only \$5! Miss the deadline and it is still only \$10 at the door.

As the contact person for your club or society, we hope you will inform your members of this great opportunity. Please find the enclosed posters with the event information and a poster specific to your organization. Please visit our website at www.westpacs.org for more information.

Regards,
